PRODUCT OF GENERAL MOTORS OF CANADA, LIMITED

LOCAL NEWS.

Miss Esther Wolfe has returned from a visit with friends at Portland, Oregon.

Messrs T. Davis and Chas Witherspoon arrived in Stony on Saturday, having driven down the trail from Mackay station with their teams.

Mrs Lorne McLean of Vegreville returned to her home on Saturday. She had been visiting in Stony with Mrs G Y McLean.

The Baner outfit, from north of town, moved in to Stony on Tuesday, and are occupying their new house on First street.

Mr Geo Oppertshausner is making good progress toward recovery, after his recent operation, and is expected home tomorrow.

Owing to the extremely unsuitable weather for hockey on Sunday, the team from Callahoo did not put in an appearance here.

At the local Court, on Saturday, a charge of driving a motor vehicle on the highway at an unreasonable rate of speed, laid against Mr W F O'Brien of Calgary, a car demonstrator, was heard, the gentleman having a representative in court. Magistrate Williams was on the bench. A fine of \$15 and costs was imposed. F W Lundy for defendant.

Work horses are still in demand by local farmers, judging by the large crowd of the latter which attended the sale in Stony on Saturday afternoon. Some good animals were offered, and these went at good prices. A well-set-up team of grays brought \$235.

If your eyes bother you, or you suffer from headaches, why not have your eyes attended to by an expert? M M Mecklenburg, eye specialist, will be in Stony Plain on Friday, March 30th.

Inga Councillors Meet.

The Councillors of Inga M. D. held their inaugural meeting in Stony Plain on March 9, with all the councillors present.

The first order of business was the election of a Reeve, when Reeve McKinlay was re-elected unanimously to the position. The new councillor from division three, Mr Geo Akins, was present.

Considerable time was spent by the Councillors over the estimates for the current year, but this matter was finally arranged in a satisfactory manner.

Mr T Graden was re-appointed as weed inspector for Inga M.D.; and J A Young re-appointed inspector under the Mothers' Allowance act.

A delegation from the Adams Road Machinery Co. was present, with prints of the new machines for road builders which the company has at present.

Canadians Are Busy

During the years that have elapsed since the war, unemployment conditions in Great Britain have been the subject of much discussion, and in no country has greater attention been paid to them than in the United States. Scores of writers across the line have professed to see in the British situation, with its large army of the unemployed, the dose system, and the great strikes and general industrial upheaval and labor unrest, the beginning of the end for Great Britain in its world leadership in finance, manufacturing, shipping and commerce.

But the Old Land has weathered the many severe storms with remarkable success, has steadily increased employment, re-established its great industries on a peace-time basis, balanced its budget, and is paying off its huge national debt. Its position at home and abroad continues to improve from year to year.

Canada, too, had a hard struggle in the years immediately following the war, though nothing like what Great Britain experienced. Nevertheless, for a number of years business in Canada was depressed and there was a considerable volume of unemployed. At the same time business conditions in the United States were brisk, employment plentiful, production was proceeding at top speed, wages were high, and the whole world was paying financial tribute to it as an outcome of the war. As a result thousands of Canadians emigrated to the States, and throughout this Dominion some sharp contrasts were drawn between conditions here and to the south, always to the disadvantage of Canada.

Within the last year or two a marked change has taken place, and today there is more unemployment in the United States both in the aggregate and in proportion to population than there is in either Canada or Great Britain. In fact, the situation in the United States is becoming so serious as to call for most serious consideration by Congress and the various State Governments.

The Department of Labor & Washington estimates there are four million people out of work at present, and the Industrial Commissioner of New York State is officially stated to be the worst since 1921, while Senator Copeland declares there are more people out of work in New York City than at any time since 1914.

Contrasting the United States with Great Britain, it is seen that New York State alone has half as many unemployed as the United Kingdom despite the fact that the latter has four times the population. Or taking the whole United States with two and one-half times the population of the United Kingdom, it is seen there is four times the number of unemployed in the States than there are in Great Britain.

While unemployment has been increasing in the United States in recent years until it has now reached a point where the National City Bank of New York reports 600,000 out of work in that State alone. Conditions of employment in New York State are officially stated to be the worst since 1921, while Senator Copeland declares there are more people out of work in New York City than at any time since 1914.

Of this year are still higher than for the corresponding months a year ago. Prospects for a continuance of this satisfactory condition are of the brightest. It seems to make no difference what branch of Canadian activity is analysed, general improvement is to be noted. The trade of the Dominion is expanding year by year, and in this connection the gratifying fact is noted that the increase in imports is largely accounted for by commodities not indigenous to Canada and were imported for use in Canadian industry. In building construction the value of contracts awarded has risen from \$278,000,000 in 1924 to \$298,000,000 in 1925, to \$372,000,000 in 1926, and to \$419,000,000 in 1927.

The steel industry, which has suffered in recent years, reports a 45 per cent. increase in production for January this year as compared with a year ago. Car loadings on the railways were 22,000 greater than a year ago. Bank clearings for the same month increased by \$425,000,000 over January, 1927. The total volume of Canadian business in January this year was the highest for any January in the history of the country. Employment for January was 99.5 and for February 100.8 as compared with the basic figure of 100 set for the year 1920, when employment figures were first tabulated in this country, and before the after-the-war depression set in.

Yes, Canada is busy and promises to become increasingly so throughout 1928.

High Price For Canadian Cattle

At a sale of Shorthorn pure bred cattle held in Chicago last month, the Canadian offerings brought the highest prices, one young male bringing \$1,800 and another \$1,375. The average price for 110 head sold was \$309.

Accepts Presidency

Admiral Earl Jellicoe, in command of the British grand fleet during two years of the Great War, has accepted an invitation to be president of the British Legion. He will succeed the late Earl Haig.

Reduce the Acid

Sick stomachs, sour stomachs and indigestion usually mean excess acid. The stomach nerves are over-stimulated. Too much acid makes the stomach and intestines sour. All this kills acid instantly. The best form is Phillips' Milk of Magnesia, because one harmless, tasteless dose neutralizes many times its volume in acid. Since its invention, 50 years ago, it has remained the standard with physicians everywhere.

Take a spoonful in water and your unhappy condition will probably end in five minutes. Then you will always know what to do. Crude and harsh methods will never appeal to you. Go prove this for your own sake. It may save a great many disagreeable hours. Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting excess acids. Each bottle contains full directions—any druggist.

A Busy Season Ahead

Work For Thousands Of Men On Railway Building In Western Canada

Work for thousands of men in Western Canada and payrolls running into millions of dollars are indicated in the western building and expansion programme of the Canadian Pacific Railway for the 1928 season, according to D. C. Coleman, vice-president of Western Lines. Tenders are already out for some of the work, including new stations and sheds, shops, cooling plants and new rail construction.

Exporting Rubber Products

Canada Is Now Fourth Rubber Manufacturing Country Of World

Canada has now become the fourth rubber manufacturing country of the world, exporting rubber products to the value of \$30,000,000 annually, though the raw product comes from countries to which the Dominion is exporting the manufactured commodity, said Hon. James Malcolm, Minister of Trade and Commerce at the annual banquet of the Canadian Rubber Association in Montreal.

Seeking Trade With Canada

Chance For More Business Being Investigated By Belgium

According to a despatch from Brussels, a Belgian consular agent has been sent to explore the possibilities for increased trade with Canada. Interesting prospects for commerce with Canada were opening up, it was stated. Canada imported from Belgium to the extent of \$10,132,879 in the past year and exported to that country to the value of \$18,568,991.

SAME SYMPTOMS IN MANY CASES

An Anaemic Condition Easily Recognized — Calls For a Blood Builder

In most cases of anaemia the symptoms are almost the same. The sufferer grows pale and is easily tired after the least exertion. The appetite is fickle and the patient loses in weight. Sometimes there are headaches, and often inability to sleep well. As the blood becomes thinner the symptoms become more pronounced and often there are fainting spells. All this shows that the blood is thin and watery, and at the very first symptom of this condition the patient should take Dr. Williams' Pink Pills, the most reliable blood-builder and nerve tonic known. The sole mission of this medicine is to enrich the blood, and when that is done all the distressing symptoms disappear. Among those who have reason to praise this medicine is Mrs. M. E. Patterson, Shanklin, N.B., who says: "About four years ago I became very much run down. I could not eat, sleep nor rest, and I grew so nervous that the smallest things so weak that I did not have strength would annoy me. Eventually I grew to move about without help. I was just a miserable wreck, became very much discouraged as I had tried many medicines which failed to help me. In this wretched state a friend urged me to try Dr. Williams' Pink Pills. I did so and before long found they were helping me. Gladly I continued taking the pills until I fully regained my health and strength and I have since continued in the best of health. Later my daughter became anaemic and six boxes of the pills restored her to health, strength and color. Naturally I consider Dr. Williams' Pink Pills a blessing to weak, run-down people."

You can get these pills through any dealer in medicine, or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont. Within a week after thirteen clubmen of London, England, had defied superstition by dining together, four had died and three were seriously ill with pneumonia. Miller's Worm Powders act so thoroughly that stomach and intestinal worms pass from the child without being noticed and without inconvenience to the sufferer. They are painless and perfect in action, and at all times will be found a healthy medicine, strengthening the infantile stomach and maintaining it in vigorous operation so that, besides being an effective vermifuge, they are tonical and health-giving in their effects.

Sweet Clover a Good Friend But a Bad Master And Must Be Kept Under Control

Like fire, sweet clover is a good friend but a bad master. After a hectic career of about 15 years it has risen from a place of universal condemnation as a dangerous weed, to one of the most popular crops in the country with many men, on sandy land particularly, making a fortune out of its seed. Even at ten dollars and more a bushel it was planted widely all over Eastern Canada and made much headway in the West. Then a few years after the war the defects of sweet clover began to show up and it sank in popular esteem until today the markets are loaded with seed and farmers cannot get more than two dollars a bushel for it.

Go into any of the five Dominion Government Seed Laboratories, scattered across the Dominion, and you will find that sweet clover pollutes most samples of other clover and alfalfa. Seedsmen will tell you that scores of good red clover, alfalfa, and alfalfa seed producing districts have been ruined by this weed, because it is a weed when growing with other crops, which comes up with the other clover, goes to seed at the same time, and because the seed of sweet clover is about the same size and weight as that of the others it is very difficult and sometimes impossible to separate it. Moreover, although once widely boomed as a hay crop, it is now generally admitted that red clover or alfalfa is a much better plant for this use.

But again, like fire, sweet clover has a very real place in Canadian agriculture, if it is handled properly. At the Government experimental farms there is no trouble with sweet clover, because it is kept under control. Even in seed producing districts it can be grown, though the big seed buyers warn growers against the risk. As fertilizer, silage, summer pasture and weed smotherer, sweet clover has a very real place, and on account of its qualities in these respects, it will probably always be grown in Canada, although no one expects to see big prices for seed again. There is no market for sweet clover in Europe and being a big yielder of seed and so widely planted both here and in United States, there is no possible chance of a recurrence of the boom period, and for the sake of the good qualities of the plant, it is well that these days do not recur. When seed prices for it were soaring the crop was planted everywhere before it was understood and the reaction which followed the appearance of its defects more or less offset the advantage of its recent popularity.

But the seeds of growing sweet clover is to prevent it from going to seed. Too much emphasis cannot be laid on this point. It must be sown early and cut before it commences to go to seed. If used for pasture it must be kept grazed closely or the stock will turn to something else and the clover will go to seed coming up in other crops later on as a weed. It must be scarified before sowing so that every seed will germinate or else some of the harder seeds will lie over one, two or even more seasons germinating later and polluting the crop coming on then. In special seed growing sections, such as Peel County, where alfalfa is a major crop, or in the Elgin or Macpherson alfalfa districts in Ontario, or in the Brooks alfalfa area of Alberta, seed experts advise growers not to touch sweet clover at all. The risk is too great of it getting mixed with the alfalfa, alfalfa, or other clover and spoiling the quality of the crops produced. If these growers could band together and prohibit sweet clover in these specialized sections altogether, it would be added protection. At all events they should insist that no threshers which have been operating in districts where sweet clover is grown should touch their own crops as the machines will carry sweet clover seeds and mix some with the seed of alfalfa and alfalfa. The seed may also be spread through manure or straw from farms growing this crop.

Alfalfa, red clover, timothy and mixtures of the three are unrivalled for hay and the alfalfa and the red

clover will build up the land. The seed of all three, if grown from good stock on a clean field, will always be worth money, but where handled properly sweet clover has a place as a fertilizer, silage or a weed smothering crop.

Holds World's Record

Hen Owned By University Of B.C. Is Sustaining Her Reputation

There is a hen in British Columbia which seems to be the prototype of the well-known fowl that "laid the golden egg." "Maizie" is the name of the famous White Leghorn, owned by the University of British Columbia, which, because of her egg-laying proclivities, has had greatness thrust upon her. This remarkable hen has already a world's record to her credit, having laid 351 eggs in one year, and she has more than sustained her reputation in the new year. According to the Braunford Exhibitor, "Maizie's" production brought to the university last year cash proceeds of \$2,225. Included in this was \$500 each for two cockerels; another cockerel sold for \$300, and seventeen hatching eggs brought \$425 to the coffers of the university. It can hardly be wondered that this Western institution has refused all offers to part with "Maizie," although high cash offers have been made. Apart from the value of this hen as a revenue producer, it is an advertisement for the university that cannot be measured in dollars and cents. It has probably done more to make the University of British Columbia known throughout the American Continent than any other single factor since the institution was founded.

Shipping Cattle To China

Market For Dairy Stock From B.C. Is Still Good

British Columbia shipping more dairy cattle to China and, despite political uncertainty there, the market for good stock continues in a healthy condition, according to Dr. A. Knight, provincial livestock commissioner.

A shipment of 23 pure-bred and grade Jersey and Guernsey bulls and cows recently went out to Hong Kong for the Farm, Dairy, Ice and Cold Storage Company there and further shipments will be sent during the spring.

Just a Bit Mixed

Uncle Ezra—"How did your automobile accident happen?"

Uncle Ezra—"Well, you see, there's one thing you keep your eye on, and another one you keep your foot on, and another you keep your hand on, and I guess I got my anatomy in the wrong place."

Canada's Copper Industry

Dominion Rapidly Climbing To Third Place In Production

That within the next 10 years Canada will become the world's third largest producer of copper, being thus surpassed in this field only by the U.S. and Chile, was the prediction made by Sydney J. Cook, chief of the mining, metallurgical and chemical branch, Dominion Bureau of Statistics, Ottawa, during an address on Canada's future in copper, given at the annual general meeting of the Canadian Institute of Mining and Metallurgy in Quebec.

Mr. Cooke said that although Canada now produces only about five per cent. of the world's output of copper, an enormous increase in production will be possible through the development of the newer fields that are just now coming to the front, such as the Rouyn District in Quebec, the Frodo mine area near Sudbury, in Ontario, and the several copper properties in Manitoba.

The speaker foresaw no diminution in the per capita consumption of copper, but rather the probability of a gradual increase in the use of this metal.

Buy At Home—You Sell There

Patronize Your Local Merchant and Build Up Your Own Community. Patronize your local merchant. Any profit he may make through your trade goes toward the betterment of his home town—and yours. His home beautifies your town. His taxes help to keep yours down. His contributions to local charities prove that his interests lie where yours do.

His advertisements in the local paper enable you editor to build a home, donate still further to local needs, and supply better material for your reading hours.

Your local merchant buys your produce. He sells it to your friends. If you sell at home and buy elsewhere, home will soon become an undesirable place to live.

The gold in the distant cities may attract, but long ago it was learned that "all is not gold that glitters."

Almond Industry Profitable

Many Varieties Are Cultivated On Island Of Malorca

Almonds have a prominent place on the table, but few people realize the great trouble taken in their cultivation. They are the most important crop of the island of Malorca, where many varieties are cultivated, and the industry is so prosperous that as old olive trees die they are replaced by almonds.

When the almonds are almost ripe they are knocked off the branches by long bamboo poles and then picked up by women and children. The nuts are separated from the husks after drying, and the shells are then broken by hand or machinery and the kernels extracted.

Modern banking originated in Italy.

Naval Agreement Between Britain and U. S. Would Be Big Step Towards World Peace

Attractive Bandeau and Bloomers

Extremely well-fitting are the attractive bandeau and bloomers pictured here for ladies and misses. The bandeau has attached shoulder straps and is gathered at the centre-front and closed at centre-back. The bloomers have elastic inserted through hems at the lower edges, and the top is gathered into shaped yokes. No. 1714 is in sizes 10 years, 36, 38, 40 and 42 inches bust. Size 38 requires 2 1/4 yards 36-inch material for the bandeau and bloomers, or 1 1/2 yards 36-inch material for the bloomers and 3/4 yard 36-inch material for separate bandeau. Price 25 cents the pattern.

Our Fashion Book, illustrating the newest and most practical style, will be of interest to every home dressmaker. Price of the book 10 cents the copy.

Great Britain and the United States eventually will be in accord on the naval armament question and when that comes a big step will have been taken in insuring world peace. John B. Atkins, political editor of the London Spectator, told members of the English-speaking union in Chicago.

"The failure of the Geneva conference was a blow to the hopes and aims of the English people, but it is only a question of time until the two nations are able to see eye to eye on this question," Atkins said.

"It is not realized in this country how necessary it is for Britain to reduce her offensive arms, or how much in earnest Englishmen are on the disarmament question. Since the war England's industries have been on the verge of disintegration. The thermometer of our prosperity, our northern heavy industries, coal, steel and textile, has been very low."

The dispute on the light cruiser question, to which Atkins attributed the Geneva break, he traced to the geographical differences between the British Empire and the United States. Britain held out for a larger number of small cruisers because of the complexity of trade routes she must protect.

"We recognize that commercial prosperity which once was Britain's has passed to the United States," he said. "Because of this we realize that entering into a naval racing competition with you would be to court disaster. That is why I am convinced that the light cruiser problem will not long remain a point of difference."

"In the next war the battle lines will be the centres of production, instead of ditches in muddy fields. The civilization of the countries involved will receive crushing blows."

Farmers Account Book

A Useful Little Account Book For Farmers

Farm surveys have shown that very few farmers follow a systematic method of farm accounting. This may, in the past, have been due to a lack of suitable simple forms or account books for the purpose. There are today a number of simple books issued which are a great help to the farmer in this important matter. Farming is a business, and if it does not pay the farmer should know why it does not pay. Some record of receipts and expenses, together with an inventory (a list with values of livestock, feed, implements, etc., on hand), taken at the beginning and the end of the farmers' year, must be kept if he is to find out why it doesn't pay. Keep a record of each department of your farm business. Find out how much you are making from each, and if any are not paying.

A simple and yet very useful little account book for farmers has been issued by the Dominion experimental farms. This may be procured from the publications branch, department of agriculture, Ottawa, for the nominal charge of ten cents. This little book while simple, is a great step in advance of keeping no accounts whatever. Now is a good time to take an inventory and start keeping accounts.

Believes New Wheat Is Rust Resistant

Discovery By Dr. Seager Wheeler Suitable For Milling Purposes

A new variety of wheat which he thinks will be substantially rust resistant at the same time be suitable for milling purposes has been discovered by Dr. Seager Wheeler of Rosthern, Sask. Dr. Wheeler made the announcement while speaking on the danger of rust in Western Canada, at the annual banquet of the Rosthern Board of Trade. Dr. Wheeler announced that the new wheat is a cross breed from Kota. He has been growing wheat for the past 40 years and for the last 20 years has endeavored to obtain a rust resistant variety. He states that this Kota cross breed will be most likely what was desired by the Western farmer. Experiments are being made with this wheat at Ottawa, Saskatoon and in Manitoba and Dakota.

Issuing Series Of Historic Postcards

British State Papers Will Be Photographed For This Purpose

To popularize history, the Public Record Office, in London, is about to issue a series of postcards made from photographs of some of the state papers contained in governmental archives. The subjects include: The original draft of the log of Nelson's flagship on the two days after the battle of Trafalgar; a signature of Shakespeare; Sir Philip Sidney's last letter; the indenture to Max Chancé, a page of the treaty violated by Germany in invading Belgium a picture of the two volumes of Doomeday Book.

ARE PALE PEOPLE WELL?

Some pale people are well, but not many. Fellow generally means thin blood. When, in addition, you are short of breath, and your heart palpates after slight exercise and you perhaps show symptoms of indigestion and nervousness, there is no doubt about it. You are in an anemic condition.

Dr. Williams' Pink Pills are the logical remedy for anemia, for they begin at once to build up the thin blood, strengthen the nerves, increase the appetite and aid digestion. But do not wait too long. Thin blood is a stealthy and dangerous foe. If you will send your name and address to The Dr. Williams' Medicine Co., Brockville, Ont., they will send you two little booklets, "Building Up the Blood," and "What to Eat and How to Eat," both of which will be found very useful in the home.

The Feeding Of Babies

From time immemorial it has been recognized that babies thrive best when breast-fed, and it is the ambition of every mother to nurse her baby. But since it frequently happens that this is not practicable for one reason or another, the young mother looks about most anxiously for that food which will best take the place of the natural food which is not obtainable. It is essential that the food used should be absolutely pure, that it should contain all the necessary elements of nourishment for the child, and finally that it should be easily digestible. For three generations Borden's Eagle Brand Condensed Milk has been the standby of mothers who have been unable to nurse their babies. It is a leading infants' food, more Eagle Brand being used than the combined total of all others. It measures up to the requirements of the infants perfectly, and nearly all babies thrive on it from the first feeding.

Aluminum possesses qualities of lightness, cleanliness and protection against rust and dust which make it incomparable as a container for fine tea. You will never find that flat, stale taste in Red Rose Tea, because it is put up exclusively in damp-proof aluminum packages.

SUNDAY SCHOOL LESSON
MARCH 25

JESUS PROCLAIMS THE KINGDOM OF GOD

Golden Text: "And Jesus went about all the cities and the villages, teaching in their synagogues, and preaching the gospel of the kingdom, and healing all manner of disease and all manner of sickness."—Matthew 23:5.

Devotional Reading: Malachi 3, 1-6.

Review By Means Of Allusions

I do not expect the Union to be dissolved, I do not expect the house to fall, but I do expect it will cease to be divided.—Lincoln.

I am confident that should every foreigner be forced to withdraw, the grain of mustard seed will grow. Churches that live will have such vitality that the good news will be spread.—A Chinese Missionary.

One touch upon His garment's fringe Still heals the hurt of bitter years; Before him yet the demons cringe, He gives the wine of joy for tears.

—Margaret Sangster.

This characterization comes perilously near to being akin to the sin of the scribes of old when they attributed that which was good to the action of the spirit of evil. A more careful analysis of the social aspirations now becoming vocal in all lands would indicate that a strong man has entered the house and that it is destined to bind the forces of evil which have been working injury to the weak.

—Charles Reynolds Brown.

"Whatever the fever, his touch can heal it."

New Weather Bureau

Station At St. Hubert Aerodrome

Has Modern Equipment. The Meteorological Service of Canada, has just established a new weather bureau at St. Hubert Aerodrome, near Montreal, under the direction of the Naval Service in connection with the trans-Atlantic air service which is expected to be put into operation in the coming summer. The station is fully equipped with the modern meteorological apparatus and is under the direction of Leo R. Charron, of the Royal Canadian Air Force.

It Will Prevent Ulcerated Throat.

At the first symptoms of sore throat, which presages ulceration and inflammation, take a spoonful of Dr. Thomas' Electric Oil. Add a little sugar to it to make it palatable. It will allay the irritation and prevent the ulceration and swelling that are so painful. Those who were periodically subject to quinsy have thus made themselves immune to attack.

Good Yields In Irrigated District

An average of 33.7 bushels of wheat per acre was produced on lands in the Lethbridge (Alberta), Northern Irrigation District in 1927, the total being 1,997,785 bushels on 60,161 acres. The total value of all production in the district, including grain, fodder crops, dairying and poultry, is \$2,988,295, as compared with \$1,528,000 in 1926. The increase in production in three years has been over 500 per cent.

Are You Nervous? Sleepless?

St. Catharines, Ont.—"I was in such a nervous and run-down state of health that I could hardly get around to do my work. I could not sleep and the least noise or excitement would completely upset me and throw me into a nervous spell. I was advised to take Dr. Pierce's Favorite Prescription and I was soon well and strong and have never had another spell of nervousness since."

"I always keep a bottle of Dr. Pierce's Pleasant Pellets in my medicine chest; they are the only medicine I have ever taken that would regulate the liver and relieve constipation without causing distress."—Mrs. Ada Taylor, 46 Wesley St. Send 10c to Dr. Pierce's Laboratory in Bridgeport, Ont., if you desire a trial pkg. Favorite Prescription tablets.

There is a small island off the coast of Ireland, which is inhabited by only fourteen families.

Experiments have demonstrated that it is possible to grow certain hardy fruits on the prairies. If there is anything in a name, the Snow and Northern Spy apples should be frost-proof.

Rub It In For Lame Back.—A brisk rubbing with Dr. Thomas' Electric Oil will relieve lame back. The skin will immediately absorb the oil and it will penetrate the tissues and bring speedy relief. Try it and be convinced. As the liniment sinks in, the pain comes out, and there are ample grounds for saying that it is an excellent article.

The electric unit known as the volt, takes its name from Alexander Volta, who made the first voltaic battery.

Demand

ASPIRIN

The whole world knows Aspirin as an effective antidote for pain. But it's just as important to know that there is only one genuine Aspirin. The name Bayer is on every tablet, and on the box. If the name Bayer appears, it's genuine; and if it doesn't, it isn't! Headaches are dispelled by Aspirin. So are colds, and the pain that goes with them; even neuralgia, neuritis, and rheumatism perfectly relieved. Get Aspirin—at any drugstore—with proven directions.

Physicians prescribe Aspirin; it does NOT affect the heart

Aspirin is the trade mark (registered in Canada) indicating Bayer Manufacture. While it is true that Aspirin causes Bayer manufacturing to secure the public against imitations, the tablets will be stamped with their "Bayer Cross" trademark.

MAIN BUDGET MOTION ADOPTED BY 24 MAJORITY

Ottawa.—By a majority of 24, the House adopted the main budget motion. The vote was: For, 116; Against, 92; majority for, 24.

The majority consisted of the Liberals, Liberal-Progressives and the Independents sitting on the government side. From the left of the speaker, L. H. Jelliffe (U.F.A., Lethbridge) was the only member to vote for the budget. Conservatives, other members of the U.F.A.-Progressive group and Labor members voted against the budget. There were loud cheers from both sides of the House as the result was announced. Speaker Lemieux left the chair and the House resolved into committee on ways and means to consider the budget resolutions one by one. But proceedings in committee were brief. There was a reporting of technical progress and the House proceeded to other business.

The House met in expectant mood. The intervention of Henri Bourassa with its sudden termination of the vote on the main budget motion had left members wondering what the day would bring forth.

Immediately the main motion was submitted Mr. Bourassa rose to speak. But he had said only a few words when Hon. R. B. Bennett, Conservative leader, was on his feet with the objection that Mr. Bourassa has already spoken and was not entitled to speak again. There was some discussion pro and con and the speaker ruled against Mr. Bennett. The speaker held that members with the exception of Mr. Cahan had not spoken on the main motion, and were therefore entitled to speak.

Mr. Bennett appealed the ruling, which was sustained by a majority of 41. Liberals, with the exception of six French-speaking members from Quebec, voted for the ruling as did Liberal-Progressives, Progressives, U.F.A. and Labor members. With them also voted C. H. Cahan, Conservative of St. Lawrence-St. George. All other Conservatives voted against.

When the result was announced, Mr. Bourassa again rose to continue his speech. He was interrupted by booing from the Conservative side. As he endeavored to continue there was a sort of catcall from the opposition lobby.

"Order, order," called the Speaker. "I will ask the sergeant-at-arms to exercise the rights of the House," he said.

The sergeant-at-arms went into the lobby. The noise ceased and Mr. Bourassa proceeded.

Where Women Cannot Vote

Defeat Effort to Give Married Women Right to Vote in Montreal Municipal Elections

Quebec.—A final effort to give married women separate as to property the municipal vote in Montreal was defeated in the Quebec legislative council on third reading of the Montreal bill, the vote being 12 to 9.

Hon. J. L. Perron, minister of roads and government leader in the Upper House, remarked in the course of the debate that there are not 15 women in the province of Quebec who favor feminine suffrage.

Destroyers For Canada

Ottawa.—The destroyers Champlain and Vancouver, which are being transferred from Great Britain to the Canadian naval service, will sail shortly from Portsmouth. After stopping at various points en route, the Vancouver will reach Esquimaux on June 3 and the Champlain will arrive at Halifax, May 17.

Condition Is Improved

Ottawa.—The condition of General A. D. McRae, Vancouver member of parliament, who suffered a fracture of the skull when he slipped and fell on the icy pavement when leaving the parliament buildings, was reported as being considerably improved.

B.C. Legislature Prorogued
Victoria, B.C.—The British Columbia legislature prorogued March 14th with customary ceremonies.

W. N. U. 1725

California Disaster

Death Toll Placed at 264 in Territory Laid Waste by Flood
Santa Paula, Cal.—Rehabilitation work is under way in San Francisco Canyon and the Santa Clara Valley, which were laid waste by the breaking of St. Francis dam with a known death toll of 264.

While searching parties continued to bring in additional bodies recovered from the silt and slime left in the wake of the flood, telephone and telegraph repair gangs, steam shovels, wrecking and bridge crews took the field in the first steps to restore the stricken area to its former beauty and industry.

Meanwhile a committee was organizing here to formulate a general rehabilitation programme. Speakers charged that the city of Los Angeles, which built the dam as part of its water system, was responsible for the disaster.

The toll in life and property, estimated from official figures and the survivors of careful observers, stood as follows:

264 lives lost.

St. Francis dam demolished.

Los Angeles municipal power house below dam demolished.

600 houses destroyed or greatly damaged.

20 miles of citrus orchard land buried under many feet of mud and silt.

10 important bridges destroyed.

State and county highways washed out at numerous points.

Telephone and telephone lines disrupted over an area connecting half a dozen towns and a dozen smaller communities.

1,500 persons virtually homeless and many of these, temporarily at least, destitute.

Livestock killed and drowned, unestimated total.

The aggregate property loss cannot be determined at present.

Officials declared that it would require weeks to fix the figures which might be found anywhere between \$70,000 and \$300,000.

Tourists Injured In Fire

Sleeping Car on Train From Luxor Completely Destroyed

Cairo, Egypt.—Passengers of a crowded de luxe train from Luxor narrowly escaped death when fire broke out in a first class coach and spread to an adjoining sleeping car. In their flight, some of the passengers, mostly tourists, received cut hands, barked shins, sprained ankles and bruises as they escaped through windows, the only available exit. There was no time to save anything or to don suitable garments.

Baggage and valuables were abandoned in a hurry to the flames. Everything was destroyed in the two coaches. The losses are believed considerable.

George Eastman, Rochester, N.Y., millionaire, and his hunting party, were aboard the train, and all the films taken on their trip were destroyed.

The Eastman films included those of wild animal life which he had taken in Central Africa.

Butter From Antipodes

Ottawa.—Between April 1, 1927, and January, 1928, 33,872 pounds of Australia butter entered Canada for consumption, according to an answer given in the House of Commons. It was also stated that 4,900,000 pounds of butter entered Canada from New Zealand during the calendar year 1927, and 895,000 pounds of mutton entered Canada from Australia during the same period.

Beer by the Glass

Winnipeg.—A little more than twelve years ago the old saloon bar, with its familiar brass foot-rail, was discarded in Manitoba. Today beer parlors with fine furnishings and restful appearance opened in Winnipeg, and a "rushings" business was reported from a score of hotels which started serving beer by the glass under the newly adopted liquor control legislation.

Bodies of Slide Victims

Vancouver, B.C.—The bodies of three men buried in a landslide at the entrance of a Canadian National Railway tunnel near Savona, some 200 miles east of here, have been recovered. The men are Andy Anderson, W. Gustha and George Parkes.

B. C. Minister Passes

Hon. William Sloan, British Columbia Minister of Mines and former Provincial Secretary, who died recently at Victoria.

Chosen Conservative Leader

Dr. J. T. M. Anderson Selected as Leader of Conservative Party in Saskatchewan

Saskatoon.—Dr. J. T. M. Anderson, member of the Saskatchewan Legislature for Saskatoon City, was selected by three hundred delegates at the Conservative convention here as the provincial leader of the party.

When the moment came for receiving nominations, the following names were submitted to the delegates: M. A. MacPherson, K.C., M.L.A., Regina; Dr. J. T. M. Anderson, M.L.A., Saskatoon; Howard McConnell, M.L.A., Saskatoon; J. A. Haegerman, Unity, and J. F. Dieffenbacher, Prince Albert.

Under the procedure decided upon, a special committee consisting of George Bennett, Wolsley; R. E. Alexander, Gull Lake, and W. Ramsay, Bladworth, immediately met the nominees to ascertain whether or not they would accept nomination.

The report brought back by this committee stated that it was the unanimous decision of the candidates that Dr. Anderson should be selected and consequently the others withdrew, their names from nomination.

Hinkler Receives Cheque

Sydney, N.S.W.—On his arrival at Canberra, Bert Hinkler, Australia's new hero-flier, was welcomed by the Commonwealth government and presented with a cheque for 2,000 pounds sterling by Premier Bruce in recognition of his feat in flying from England to Australia in fifteen days.

Cost of Fishing Probe

Ottawa.—The total cost of the Royal Fisheries commission established to investigate the problems of the fishermen on the Atlantic coast amounted to \$51,845.56 up to January 31, 1928. This was divided between \$26,220.11 for fees and \$25,625.45 expenses.

Banff Carnival Triumphs

1. Miss Emily Mason, retiring queen of carnival, receives delegation of Stoney Mountain Indians.
2. Mark Peters, well known Stoney Mountain Indian, adjusts the new Queen Kate Harrison's sash prior to the ski-joring race.

After one of the most successful Banff Carnivals on record proceedings came to a close on Saturday, February 11, with the crowning of Miss Kate Harrison, of Vancouver, B.C., as the new queen. Miss Harrison will hold office until the close of next year's carnival. One of the most picturesque happenings of the eight days festivities was the receiving of a band of Stoney Mountain Indians by the retiring queen, Miss Emily Mason, of Calgary, who received a tremendous ovation as she vacated her throne of office.

Visitors from all over the United States and Canada attended and viewed

Officials Will Be Examined

To Give Evidence at Future Sitings of Immigration Committee.

Ottawa.—Officials in charge of immigration and colonization for the Canadian Railways will be summoned before the parliamentary committee investigating the department of immigration.

Mr. Egan, Deputy Minister of Immigration, was again on the stand. He said the department had checked to determine if all farm laborers brought in under the railway agreement actually went on the farm and had discovered that such was not the case in some instances.

Mr. Egan said he thought railways which brought in the bulk of immigrants were fulfilling the spirit of their agreement.

Every effort had been made by the department to induce British farm laborers to come to Canada and despite the lower fare in effect to Australia there were more people coming to Canada from Britain than went to all other outlying parts of the Empire.

Answering a question by George Spotten, Mr. Egan declared there had been newspaper propaganda against Great Britain during 1922 and 1923, arising partly from non-payment of interest on Grand Trunk securities. This affected immigration, but the propaganda had later been counteracted.

Usually immigrants were not stripped for examination, he said, and Dr. McGibbon objected that if this was so the medical examination was a farce. It would not be known if a man had tuberculosis or heart trouble without stripping him.

For Union With Canada

Senator Would Welcome Newfoundland as a Province of this Dominion

Ottawa.—Favorable attitude by Canada towards any proposal which Newfoundland might make to join the Dominion is advocated by Senator C. E. Tanner, Halifax. Senator Tanner has given notice of a motion for discussion in the Senate advocating:

"That in the opinion of this House, if proposal should be made on behalf of the people of Newfoundland for union with the Dominion of Canada the people of Canada would view such proposal with favor, and would welcome Newfoundland as a province of this Dominion."

Is Back to Par

New York.—The Canadian dollar climbed back to par on the New York money market after being at a slight discount for more than three months. The Canadian dollar was at a slight premium on par from August 22 to December 2, 1926, when it dropped to a discount, which has since ranged from 1-32 to 13-64 of one cent.

WOULD GIVE AID TO CANADIANS SETTLING IN WEST

Ottawa.—A resolution proposing that citizens of Canada desirous of settling on western land receive from the Government the same assistance and favorable treatment as the citizens of Europe was proposed in the House of Commons by C. L. Boulanger (Liberal, Belle Chasse).

The reasonableness of the proposal should appeal to all Canadians, Mr. Boulanger said. It would mean more shoulders to bear the burden of debt and would help to keep Canadians at home on the land. Canadians, the descendants of the Loyalists and those of French origin had traditions which made them the best type of settlers.

Hon. J. W. Edwards (Conservative, Frontenac) declared that the resolution should be extended in order to encourage westerners to come east and settle in the central provinces. He could not see the force of the resolution until the Government adopted a policy that would keep the youth of Canada on the land.

H. E. Lavigne (Liberal, Quebec-Montmorency) declared that Hon. Mr. Edwards should be joining hand to hand with Mr. Boulanger in the matter of this resolution, rather than in "whispers of death."

Peter McGibbon (Conservative, Muskoka) declared that what was wanted in Canada was work. He could understand why the minister of immigration gave greater facilities and encouragement to immigrants from Europe when Canadians were leaving this country daily. He suggested the establishment of fur farms in Northern Ontario and Quebec.

Believes In Northern Route

Capt. Bernier Has Great Faith in Future of H. B. Railway

Ottawa.—Captain J. E. Bernier, famed Canadian navigator and Arctic explorer, believes an unprecedented period of prosperity will be Canada's fortune once the Hudson's Bay Railway is opened, thereby providing an economic outlet to the Atlantic. He expressed himself thus when he arrived in the capital.

Captain Bernier said that with the opening of the new route great shipments of cattle and grain would be facilitated in their voyage to Europe, and that Canada would then compete more capably with the United States in the trading world. He said, however, that the ships used for this purpose would have to be built with sufficient strength to withstand ice pressure and that their mariners would require a full and accurate knowledge of existing conditions, supplemented with weather reports from coast stations.

Find Body of Murdered Man

Charred Bones of Victim Discovered On Trail Island

Vancouver, B.C.—Bones of a man who had apparently been stung by a blow on the back of the head and then killed, and the remains burned in a cleverly concealed natural furnace have been found on the southeast corner of Trail Island, about 30 miles north of Vancouver. It has been reported to provincial police.

The district is popular with summer campers. Indications were that the crime was committed within recent years.

A deep hole between boulders had been noticed just above high water mark for the burning in a concealed spot that could not be seen by campers on the mainland. The case is being investigated.

Bill Given Third Reading

Winnipeg.—The Manitoba Old Age Pensions bill has passed its third reading in the legislature. A sum of \$500,000 will be required to finance the measure during the first year, and this will be raised by means of a property tax. The bill will be effective only after proclamation by the lieutenant-governor, and probably will not become operative until late in the summer.

The Canadian Pacific's Big Five

When the Big Five, the quietest of trains due to be operated by the Canadian Pacific Railway on express schedules from the east of Canada and from Chicago to this coming summer to the coast, make their initial runs, the dramatic spectacle will be presented daily of five great trains flying across the Dominion and all converging on the wonder district of the American continent, the Canadian Rockies, where snow-capped mountain peaks and beautiful valleys and lakes vie with another in attracting visitors from all parts of the United States and the rest of the world.

The key train of the quietest will be the "Trans-Canada" which with two others "The Imperial" and "The Toronto-Vancouver" ex-

press will have their runs entirely in Canadian territory. The balance of the five, "The Mountaineer" and "The Soo-Pacific" will leave from Chicago for the Canadian Rockies and the Pacific coast and will consequently run partly through the United States. The "Trans-Canada" and the "Mountaineer" are all sleeping car trains.

The "Trans-Canada" with a reputation throughout the world covers the 2555 miles between Montreal and Vancouver in 89 hours and 15 minutes. As part of its equipment it carries an open observation car between Calgary and Kamloops. This train starts on May 13. The "Imperial" and the "Toronto-Vancouver" express operating from the coast to Montreal and Toronto

respectively are both year round trains except for modified schedules. Finally, there will be "The Mountaineer" and "The Soo-Pacific" running out of Chicago for Vancouver, B.C. The former will start its daily run to Vancouver on June 11 and the train will commence operation from the coast to Chicago on June 15. In this run ten hours will be cut off last year's figures the journey taking 73 hours as against 83 hours and fifteen minutes last year. The "Soo-Pacific" will leave Chicago on June 23 until August 30, and from July 2 until August 30 in the opposite direction. Both the latter two trains consist of all sleeping cars.

Railway Timé Table.

MAINTAIN THE QUALITY OF ALBERTA'S CROPS.

Better Seed

means

Better Yields — Better Grades — Better Prices.

A special committee appointed by the Minister of Agriculture, with the co-operation of numerous organizations in the province, is urging the use this spring by farmers throughout the province of

High Quality, Clean, Treated Seed Grain,
in order to reduce the heavy annual losses sustained by sowing inferior seed.

- Farmers can co-operate by
1. Using registered seed wherever available.
 2. Using at least high quality commercial seed.
 3. Having seed tested for germination and purity.
 4. Treating seed for smut.
 5. Thoroughly cleaning all grain intended for seed.
 6. Seeding only varieties of recognized quality and varieties suitable to the district.
- Good seed will be in demand this spring. Secure your requirements early—before the supply is exhausted.

U.F.A. Locals, Boards of Trade, The Wheat Pool, Banks, Commercial Grain Firms, The Press, and many other organizations are working in co-operation with a

BETTER SEED COMMITTEE

consisting of representatives of the Provincial Department of Agriculture, the Dominion Seed Branch, the Canadian Seed Growers' Association, the Alberta Seed Growers' Association, the C.P.R. Agricultural Department, and the University of Alberta.

D. A. McCannel, Provincial Publicity Commissioner, Edmonton, Secretary.

Stony Plain and District.

Mr F W Yeats, manager at the Canadian Bank of Commerce, returned to his duties this week, after a fortnight's vacation.

Monday's train from Prince Rupert came thru here about ten hours late.

The Holborn dance, billed for April 9, has been changed to March 30.

Wm Jensen, of Ledno, has been promoted to the position of travelling superintendent of elevators for the U. G. G., his territory being the district around Edmonton.

M M Meeklenburg, the well-known optical specialist, will be at the Royal Hotel, Stony Plain, on Friday, March 30th. See him and see well.

Not the Right House.

The first of the season's farm-hand brigade of foreigners has started to arrive. The other morning one of these landed in Stony on the 24 24 train. Being short of funds he thought he'd start out then and there, altho it was only a short time after midnight, to look for a job at the nearest farmhouse.

Shortly after Corp. Moses was awakened from his slumbers by a knock at the door. On inquiring the nature of the knocker's errand, the Corporal was asked if he needed any help on the farm the coming season. The applicant had mistaken the Detachment house for the first farmhouse out of town.

Pool Office in Old Country.

Everything is now in readiness at the London Office of the wheat pool to assist in the handling of this year's crop and there is every indication that the pool will be able to do a large business notwithstanding certain opposition there, states R. A. Macpherson, one of the directors of the Alberta wheat pool, who has just returned from the Old Country after establishing an office of the Canadian where pool in London. Mr. Macpherson also visited the continent where the pool now has twenty-six agents at various centres handling pool wheat.

All-Round Person Wanted

Man Wanted, to play a saxophone weighing 200 lbs.; must be good musician, and able to take charge in absence of bandmaster; one who can play any instrument from croquet to a shoo-horn preferred; must be willing to milk cows, run a washing machine and do chores; this position offers splendid opportunity to trap muskrats in spare time. Bring health certificate and traps. Ebenezer Doolittle, RR 3.—Ransom (Kansas) Record.

Send Coupons In.

Wheat Pool members should arrange to send their delivery check and coupons to the head office of the Wheat Pool, Calgary, at once. These coupons must be in the office before a second payment can be made. We strongly urge members to see that their coupons are sent in.

Spruce Grove News

The house on St Joseph's church grounds formerly used as a priest's residence has been sold to Mr Steffler, who has removed it.

Mrs Alice Beard, who has been jarning north of town, intends holding a clearance sale on Wednesday next, of all the farm machinery and stock.

While motoring along the Baseline west, on Saturday afternoon, two young City men in a Star sedan had the misfortune to have their auto jump the track and turn over on its side, just west of here. The roof was bust open, the windows broken, and the rear axle bent. The wreck was hauled to Stony Plain by a crew from the Sommerfield & Mayer garage.

Rev Father Woodhouse sang Mass at St Joseph's church on Sunday last, in the absence of the pastor, Rev Chas Keenan, who is now in the hospital receiving treatment, and who may not be able to officiate at the services until May.

On Thursday of last week the local railway men were puzzled at the actions of two young men, who drove onto a railway crossing west of the station, unhitched their team, leaving the sleigh on the rails in front of an approaching engine. The latter on coming to it, pushed it to one side. The young men returned with their team when the train had passed. Later it was found the name of one of the chaps was Jac Farr.

Use Better Seed—Grow Better Crops.

Treatment of seed grain with formalin or copper carbonate to prevent smut takes little time and will greatly reduce the annual loss from this cause.

Start now with a small quantity of registered seed, at the same time use only the best commercial seed available for all your crop. You will be well repaid by an improvement in the quality and increase in the yield of your crops.

The experience of older provinces proves that the spread of noxious weeds will eventually drive farmers from the land. Alberta farmers can profit by this lesson and check the spread of this menace. The great majority of weed seeds enter the ground through the seed drill and the remedy is very apparent—use the fanning mill on all seed grain.

A Promise More Than Kept.

When the publishers of the Family Herald and Weekly Star of Montreal two years ago announced that the owner of the paper wished them to reduce the subscription price from two dollars to one dollar a year, they promised that not a single feature of the paper would be eliminated, but new features would be added, and the paper made more valuable than ever. It is frankly admitted by their million readers that their promise has been more than fulfilled, and today The Family Herald and Weekly Star at one dollar a year is the marvel of the newspaper world. No home in Canada would regret this investment. Just think of a great big 72 page publication at less than two cents per week, and every page of it alone worth the money. No wonder the Family Herald and Weekly Star has over a million readers. It deserves them all, and more too.
